SUPERVISORY PATENT EXAMINER

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The claims in the instant application have not been rejected using prior art because no references, or reasonable combination thereof, could be found which disclose, or suggest a nucleus prosthesis for insertion in an intervertebral cavity, the prosthesis characterized in that it comprises: a first and a second interlocking structural component, each made of a semi-rigid, deformable elastic material suitable for supporting a compressive load and in that, the second structural component inserts substantially within the confines of an envelope defined between surfaces of the first structural component; insertion tubes which guide the first structural component of the nucleus prosthesis into the to-be-filled intervertebral cavity and, after insertion, hold the first structural member in place; and a rigid stem connected to the first structural component via a connection, the rigid stem guiding the second structural component through the tubes into engagement with a central cavity of the first structural component after insertion into the intervertebral cavity, as set forth in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Annette R. Reimers whose telephone number is (571) 272-7135. The examiner can normally be reached on Monday-Friday.
